

Strategic Initiative - Water Resources Management

To ensure the quality and quantity of water resources when and where they are needed, and to provide a safe and reliable water supply, and flood protection system.

Community Outcomes and Measures:

- Enhanced water quality of our bays, rivers, and creeks and natural systems.
 - Percentage of customers satisfied with water quality of our bays, rivers and creeks
 - Percentage of contaminated site remediations
 - Percentage of seagrass coverage in Sarasota Bay
 - Percentage of septic systems removed from Phillippi Creek Basin
- Adequate water supply to meet projected land use demand.
 - Percentage of customers satisfied with water supply
 - Percentage of customers satisfied natural systems are not impacted
 - Current water supply exceeds projected demand
 - Number of new domestic wells
 - Level of adverse impact to water quality or water quality level in Floridan aquifers or Peace River
 - Percentage of citizens satisfied with water quality
 - Percentage compliance with water quality standards
- Minimal flood damage.
 - Percentage of customers satisfied with flood control services
 - Community rating level
 - Percentage of structures at risk
